- ① Due to the different production batches of products, nickel plated products may have fine sand blasting, which does not affect the size and function.
- ② If there is requirement of rust prevention, please choose stainless steel materials or electroless nickel-plated products firstly.
- ③ Due to different production batches, the fine sandblasted electroless nickeled products may not be sandblasted when shipped, which does not affect the size and function.
- ④ Due to production process reasons, there will be a threaded fastening hole at the end of the threaded hole of the stainless steel fixing collar body, which does not affect the size and function.
