

Oil Free Slide Plates

Dimension Selectable Copper Alloy

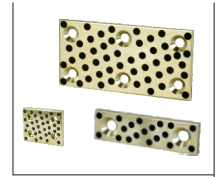

Flat Head Countersunk Screw Hole

Code	Type	Material
OBJ01	Dimension Selectable	Flat Head Countersunk Screw Hole High Tensile Brass Alloy(SP2) Solid Lubricant Embedded (Graphite)

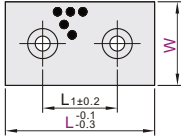

Thread Locking Treatment

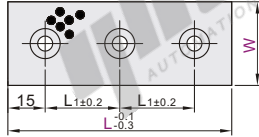

- The threads are coated with special resin which excels in elasticity, abrasion and oil resistance.
- Thread locking will begin to lose its effectiveness gradually after the fourth use.

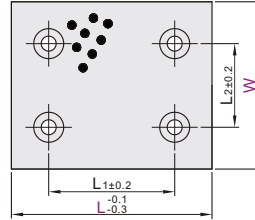

2K(2-Hole Type)

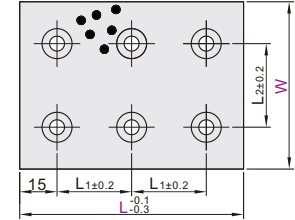

3K(3-Hole Type)

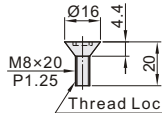

4K(4-Hole Type)

6K(6-Hole Type)

Applicable Screw: Hex Socket Flat Head Cap Screw \oplus Slide Direction

Thread Locking Compound

Screws need to be purchased separately.
