

# Rubber Vibration Damper

- Both Ends Tapped
- One End Tapped

## Both Ends Tapped

| Code  | Type             |               |             | Material       |               | Rubber Hardness | Surface Treatment |
|-------|------------------|---------------|-------------|----------------|---------------|-----------------|-------------------|
|       |                  |               |             | Main Body      | Metal Fitting |                 |                   |
| NHE03 | Both Ends Tapped | Economic Type | Cylindrical | Natural Rubber | S45C          | Shore A60       | Zinc-plated       |

- ① Small amount of rubber residue during processing , it does not affect product performance.  
 ① Product contains anti-aging additives , the surface of the product will continue to slowly precipitate white wax, which is normal and does not affect product performance.

Inventory

## Before and after white wax is precipitate
