

# with Switch ▶ General Type

## Cabinet LED Lights

| Code  | Type        | Cost-Effectiveness | Whether with Switch |
|-------|-------------|--------------------|---------------------|
| ZHE30 | with Switch | Economic Type      | with Switch         |
| ZHE75 |             | Standard Type      |                     |

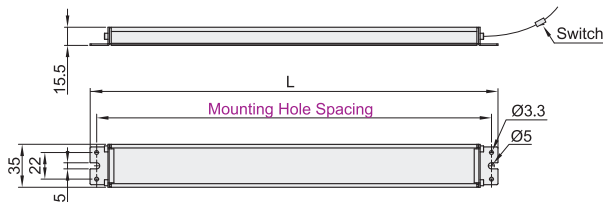

CE

### Feature

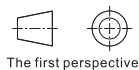

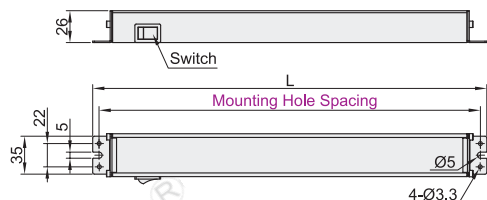

- Special optical structure, non-glare lighting, uniform light emission;
- High energy efficiency, saving energy;
- Longer life than traditional light, lower maintenance costs;
- Flexible and convenient, fast startup, allowing frequent startup;
- Environment friendly, no flicker, no ultraviolet light, no infrared radiation;
- IP rating is Ip54;
- Standard 1.5m extension cord.

Application Scenarios: high-speed rail inspection machines, freezers, electric cabinets, freezers, CNC machine tools and other lighting.

### Economical Type ZHE30

### Standard Type ZHE75
