

Junction Boxes

◀ Vibration-Proof Screw-Free Type with Terminal Block

Code	Type	Material
ZKN09	Vibration-Proof Screw-Free Type with Terminal Block	Plastic

Features:

- This series of anti-shock and screw-free terminal boxes are made of high-quality ABS/PC material by die-casting. It has the characteristics of concise structure, excellent impact resistance, effective sealing performance and good anti-electromagnetic interference.
- The wiring terminal circuit board or other electrical components can be installed in the junction box, the rated current of the terminal block is 10A, and the maximum crimping power line is 2.5mm², which is suitable for various automation fields.

Number of Poles: 6P

Number of Poles: 10P

Number of Poles: 15P

Number of Poles: 20P

Number of Poles: 30P

Number of Poles: 40P
